

Your Business

Energy Partner.

Helping Businesses Manage Energy, Cut Costs and Drive Sustainability.

★ Trustpilot

About Our Company

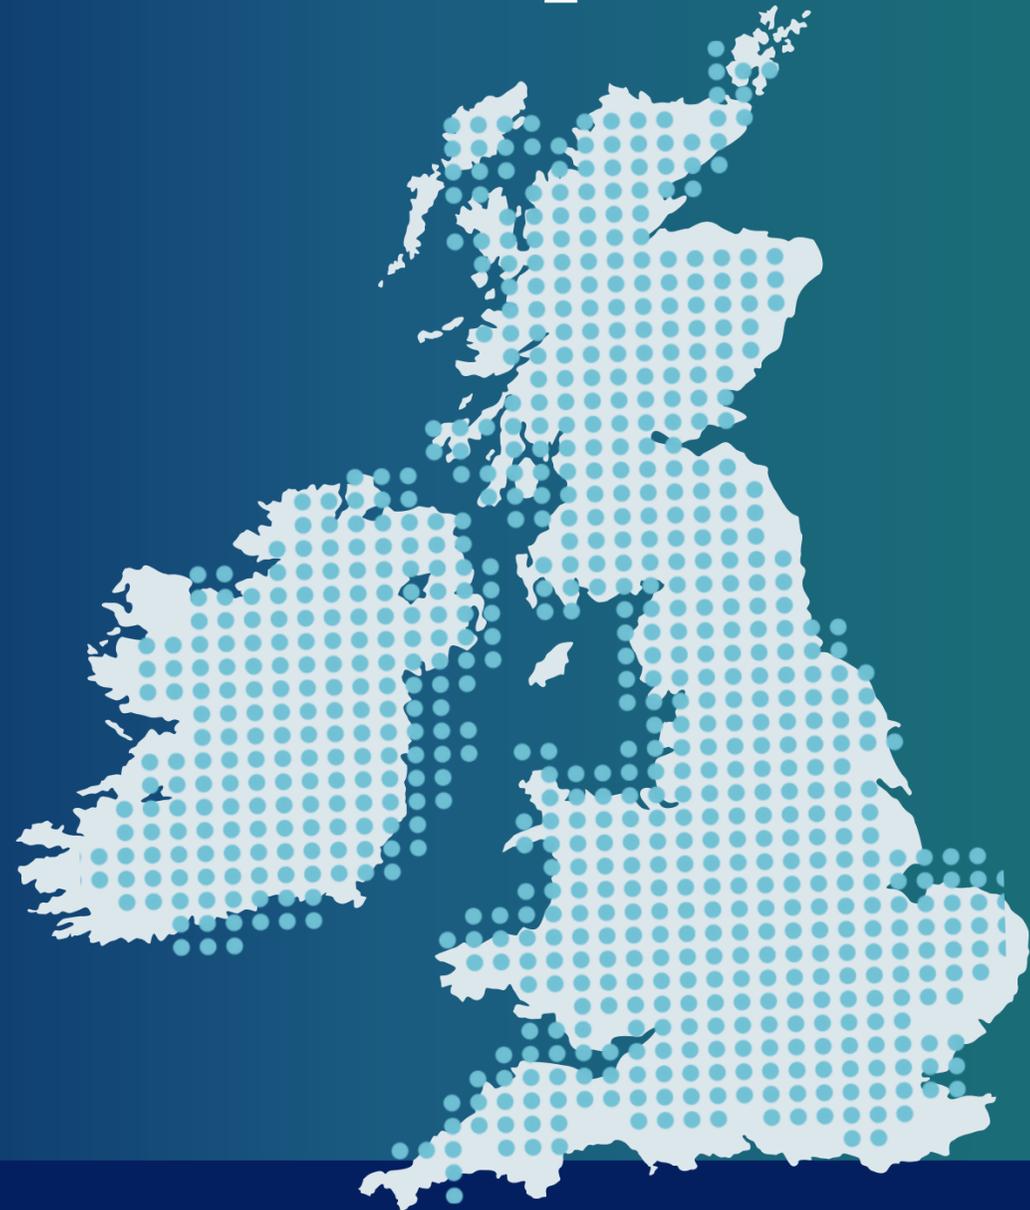

At ECBS, we are committed to transparent and trustworthy utility services. We offer tailored solutions and a comprehensive range of services, including Energy Procurement, Management, Renewable Energy, Compliance, and more.

We provide tailored services to individual business needs, which has been a key driver of our success. Unlike generic approaches, we invest in our customers by thoroughly understanding their requirements and offering a comprehensive range of services, from energy audits to procurement and account management.

Our Impact

Who We Support

1000's of Customers

We are proud to support thousands of customers across the UK, ranging from small independent businesses to large national organisations. Each one benefits from tailored advice, clear strategies, and reliable ongoing support that help them navigate the complexities of the energy market.

Serviceable Trusted by Businesses

Over 1000 5* Reviews

Our reputation has been built on consistently delivering excellent service, reflected in the more than 1,000 five-star reviews we've received across platforms such as Trustpilot, Google, and others. Customers regularly highlight our transparency, responsiveness, and expertise, recognising the difference our advice and management has made to their businesses.

Our Experience

16 Years in Business

For 16 years, we've been helping businesses of all sizes make smarter energy decisions, from reducing costs and improving efficiency to supporting long-term sustainability goals. Our experience and expertise mean we can deliver solutions that create real value today while preparing organisations for the energy challenges of tomorrow.

Energy made Simple.

We provide tailored services which has been a key driver of our success. We invest in our customers by thoroughly understanding their requirements and offering a comprehensive range of services.

Procurement

By taking charge of the procurement process on behalf of businesses, we can save you both time and resources.

Management

From cost management and recovery to insightful reporting and resource optimisation, our services are tailored to meet your unique needs.

Sustainability

We provide expert sustainability consultancy and carbon accountancy services to help businesses reduce their environmental impact and achieve Net Zero.

Energy Procurement

At ECBS, we take the complexity out of energy procurement. Whether securing fixed contracts that lock in certainty or managing flexible agreements that adapt to market changes, our focus is always on achieving the best outcomes for our customers.

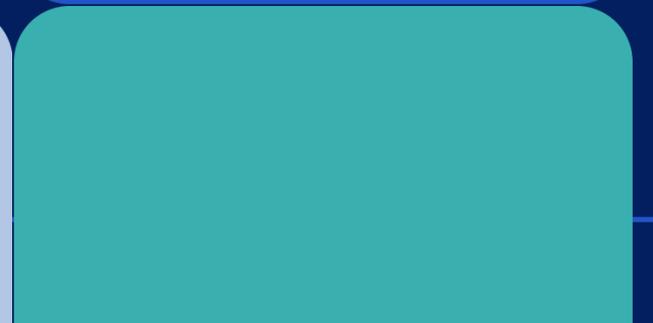

Fixed Procurement

We secure competitive fixed contracts that protect our customers from market fluctuations and give them long-term budget stability.

Flexible Procurement

We actively manage flexible contracts on behalf of our customers, using market insight and timing strategies to optimise opportunities and deliver better value.

Energy Procurement

Services

ECBS help businesses manage energy costs and navigate market fluctuations. We offer a range of options, including fixed-rate contracts, flexible purchasing strategies, and tailored solutions, allowing customers to choose a contract that best suits their needs.

Energy Management

We provide tailored energy management expertise that helps businesses cut costs, reduce energy use, and improve efficiency. Every client works with a dedicated account manager, ensuring personalised support, clear communication, and long-term results. Our solutions are built on market knowledge, transparent data, and proven methods to deliver lasting value.

Carbon reduction
+32%

Carbon reduction achieved through improved energy efficiency, smarter controls, and ongoing performance monitoring.

kWh Reduction
+29%

Energy savings delivered through detailed analysis, optimised consumption patterns, and targeted reduction strategies that identify inefficiencies, improve operations, and drive measurable long-term results.

Figures based on average client results and may vary depending on individual circumstances.

Energy Management

Services

	kVA & Capacity Reviews	Cost Recovery
	Cost Assurance	
Consumption Reporting & Forecasts	Resource Management	Compliance Audits (SECR, ESOS, ISO)

We provide tools and insights to help businesses understand, manage, and reduce their energy use. Our reporting ensures compliance while highlighting opportunities for efficiency and cost savings.

Our reporting ensures compliance while highlighting opportunities for efficiency and cost savings

Sustainability

At ECBS, we make sustainability practical and cost-effective. From on-site generation and renewable supply to carbon reporting and efficiency upgrades, we help businesses cut costs and reduce emissions.

Renewable Energy Certificates (REGOs / GoOs)

Guarantee your supply is backed by green generation.

On-site generation & PPAs / CPPAs

Access clean energy directly from renewable sources.

Energy efficiency measures

Audits, upgrades, and operational improvements.

Carbon accounting tools

Transparent reporting and emissions tracking.

Carbon Accounting

Carbon Reporting Made Simple

Our carbon accounting tools give businesses clear visibility over their emissions. We help you measure, track, and report carbon output with precision.

Insight That Drives Action

Our data helps you make informed decisions. We turn complex carbon data into actionable insights that support both sustainability goals and business performance.

Growing a Greener Future Together

At ECBS, trees will be planted for every new client we work with as part of our initiative.

Trees planted across the globe under our clients' names

Supports biodiversity and local ecosystems

Shows commitment to sustainability to staff, customers & stakeholders

A simple, credible way to offset emissions
